Green Street Road Closure

(Between Sixth Street and Wright Street)

Champaign – In order to construct a new sanitary sewer main from the new development at 708 S. Sixth Street, Duce Construction will close Green Street, between Sixth Street and Wright Street. The sanitary sewer requires connection to the UCSD interceptor on Healey Street. The construction of the new sanitary sewer main includes a new manhole in the intersection of Green Street and Sixth Street.

The closure is scheduled to start at 7:00 a.m. on Tuesday, September 3 and end by noon on Friday, September 13. A traffic control plan is included.

The City appreciates the cooperation of travelers in the area and encourages caution when traveling in proximity to a work zone.
